SUMMARY

Full-stack engineer with 3 years of experience building software that businesses actually run on. Built complete internal systems for attendance, billing, task management and certificate verification, now used daily by 35+ staff and 100+ customers, and delivered 10+ websites for clients in Nepal and Australia. Comfortable owning a project from the first client call to deployment. Main stack: React, Next.js, Node.js, PostgreSQL, GraphQL and Spring Boot.

EXPERIENCE

Lead Software Engineer · Artova Solutions — Kathmandu · Jul 2024 – Present

- Built the company's internal operations platform from scratch: attendance, clock-in, task assignment, billing, and certificate generation with public online verification. **Used every day by 15+ staff.**
- Designed and delivered a full management system for Enlighten Research Institute, moving their research and thesis workflow from paper and spreadsheets to one platform for **20+ staff and 100+ clients.**
- Created Artova Designs (artovadesigns.vercel.app), an in-house poster and graphics editor, after Canva became too slow and costly for the volume of client work.
- Delivered production websites for Himbari Foods, Moonlight Cargo and Loving Heart Nepal (a child welfare organization), plus the Artova company site.

Backend Developer (Contract) · Sajilo Gaadi Pvt Ltd — Remote · Jul 2026 – Present

- Building the backend for a ride-sharing platform, now in its final stage: REST APIs, authentication, ride booking and driver management.
- Designed the PostgreSQL schema and tuned slow queries as data grew.
- Working with the mobile team to connect the app to the backend and keep the API contract stable.

Full-Stack Developer (Contract) · Online Home Pvt Ltd — Remote · Mar 2025 – Aug 2025

- Built onlinehome.com.np end to end, from gathering requirements with the client to deployment.
- Connected third-party services through their APIs and improved page load speed.

Frontend Developer (Contract) · Cmarga Pvt Ltd — Remote · Jul 2024 – Feb 2025

- Built the cmarga.com platform with a React frontend and Django backend as part of a two-person team.
- Shipped new features and fixed user-reported bugs after launch.

Freelance Web Developer · Australian finance clients — Remote · Oct 2023 – Jun 2024

- Built the website for Destiny Finance and Home Loans, then rebuilt it with a cleaner design and codebase as the client's needs grew.
- Built the first version of the Aussie Finance and Home Loans website.

SELECTED PROJECTS
